

The SV range is a modern filing cabinet range of high quality and finish. The cabinets are powder coated in Ral 9002. They are constructed to protect suspension files against fire. The drawers slide out on telescopic ball-bearing slides.

Each drawer is separately insulated and fitted with a lock. To eliminate risk of toppling only one drawer at the time can be pulled out. The cabinets are supplied with central locking that locks one or more drawers at the same time.

SV20

Article no.: 473020

Fire class acc. to NT Fire 017:60P

Lock: key lock incl. 2 keys

External dimensions mm:

- height: 729
- width: 441
- depth: 515

Internal dimensions mm:

- height: 288
- width: 330
- depth: 414

Weight: 78 kg

Volume: 79 litres

Suspension file rails

Total length suspension file storage, metres: 0.83

SV40

Article no.: 473040

Fire class acc. to NT Fire 017:60P

Lock: key lock incl. 2 keys

External dimensions mm:

- height: 1409
- width: 441
- depth: 515

Internal dimensions mm:

- height: 288
- width: 330
- depth: 414

Weight: 143 kg

Volume: 157 litres

Suspension file rails

Total length suspension file storage, metres: 1,66
